

Knit Conductive Fabric – Silver 20cm square

PRODUCT ID: 1167

Description

This knit conductive fabric is 100% silver and super luxe! Use small pieces on the tips of gloves or in any soft circuit situation where you need a bit of stretch. This highly conductive fabric has a resistance of less than 1 ohm per foot in any direction across the textile. It can be used to make soft keypads and capacitive touch sensors, as well as soft "squeeze" switches. Great for use with FLORA.

Sold as a 20cm x 20cm piece (minimum dimension)

Use a dry iron on medium. Dry cleaning recommended. Do not use steam! Discoloration can occur.
